PROFESSIONAL SUMMARY

Results-driven Technical Project Manager with 5+ years of experience leading cross-functional teams, orchestrating agile workflows, and delivering high-impact software products.

EXPERIENCE

Lead Technical Project Manager | Offroad Gaming Studios (Jan 2023 - Present)

- Managed a 15-initiative product roadmap for "Himalayan Offroad Truck Driver", coordinating across sales, support, and dev teams.
- Streamlined sprint planning overhead, saving 3+ hours weekly, by implementing automated backlog triage workflows.
- Reduced customer-reported onboarding bugs by 31% using Claude Code to automate bug triage from crash logs.

Associate Product Manager | CloudScale Technologies (Jun 2021 - Dec 2022)

- Accelerated release cycle turnaround from 14 days to 4 days across 12 microservices.
- Automated API regression test monitoring, reducing critical bug escapes by 42%.

PROJECTS

- Agentic Jira Triager: Built an open-source autonomous agent using Python and Gemini.
- PM-Skills Automation Suite: Local CLI orchestration chaining roadmap outcomes.

SKILLS

- Methodologies: Agile, Scrum, Kanban, Sprint Backlog Pruning
- Tools: Jira, Confluence, Git, Claude Code, Gemini CLI, Python

EDUCATION

- B.S. in Computer Science & Engineering | Tribhuvan University (2021)
