

ARJUN SHARMA

Target Role: Technical Project Manager

Kathmandu, Nepal | arjun.sharma.pm@example.com | +977-98XXXXXXX | linkedin.com/in/arjunsharma-pm

PROFESSIONAL SUMMARY

Technical Project Manager with 5+ years of experience delivering web, mobile, SaaS products across cross-functional engineering teams. Proven track record of driving agile execution, unblocking technical deliverables, and integrating AI-assisted workflows into delivery operations. Skilled in Agile/Scrum governance, stakeholder alignment, risk management, and data-driven execution.

CORE COMPETENCIES & TECHNICAL SKILLS

- **Project & Agile Governance:** Agile / Scrum, Project Planning & Execution, Roadmap Management, Sprint Planning, Risk & Dependency Management, Stakeholder Management, Resource Planning, Release Management, RAID Management, Scope & Change Management
- **Technical & Architecture:** SDLC, REST APIs, SQL, Git / GitHub, AWS, CI/CD, React, Node.js, Postman, Software Architecture Fundamentals
- **Tools & Platforms:** Jira, Confluence, ClickUp, GitHub, Slack, Notion, Google Workspace
- **AI & Automation Tools:** Claude, Gemini, ChatGPT

WORK EXPERIENCE

Senior Project Manager | Nexora Technologies

Jan 2023 – Present | Kathmandu, Nepal

- Built AI-assisted workflows for meeting summaries, project status reporting, risk identification, and Jira ticket preparation, reduced weekly manual reporting effort by approximately **8 hours** per project manager.
- Manage 3 concurrent software projects with cross-functional teams of 8–18 members.
- Coordinate Product, Engineering, QA, Design, and client stakeholders across multiple time zones.
- Facilitate sprint planning, daily coordination, sprint reviews, retrospectives, and release planning.
- Maintain project roadmaps, RAID logs, dependency trackers, delivery dashboards, and stakeholder reports.
- Coordinated a major SaaS migration involving 25+ services and 3 engineering teams.

Project Manager | CloudPeak Solutions

Aug 2021 – Dec 2022 | Kathmandu, Nepal

- Governed end-to-end delivery of web and mobile applications for enterprise clients across 3 international markets (US, UK, Australia), achieving **95%** milestone adherence.
- Facilitated Agile/Scrum ceremonies across 2 engineering teams (12+ developers and QA), maintaining Jira delivery roadmaps and unblocking technical dependencies.
- Managed scope changes and RAID risk logs across **15+ release** cycles, preventing milestone slippage and budget overrun.
- Clarified REST API integration dependencies and coordinated UAT sign-offs, reducing defect escapes prior to production release by **35%**.

KEY PROJECTS & INITIATIVES

AI Customer Support Platform | Technical Project Manager

[Inspectable Demo & Architecture: case-study/ai-customer-support]

- Led delivery of an AI-assisted customer support platform integrating an LLM-based assistant with an existing SaaS product.
- Coordinated Product, Engineering, QA, and AI engineering teams.
- Managed integration dependencies between the SaaS platform and AI services.
- Coordinated API testing and UAT.
- Managed model-evaluation milestones and release criteria.
- Established risk tracking for hallucination, latency, and integration failures.
- Coordinated phased production rollout.
- **Technologies:** REST APIs, Python, React, AWS, PostgreSQL, LLM APIs

E-commerce Platform Migration | Project Manager

[Inspectable Case Study: [case-study/ecommerce-migration](#)]

- Managed migration of a legacy e-commerce platform to a modern cloud-based architecture.
- Coordinated three engineering teams.
- Managed migration milestones and dependencies.
- Coordinated QA and UAT.
- Maintained release readiness checklist.
- Reported progress and risks to executive stakeholders.
- **Technologies:** AWS, Node.js, React, PostgreSQL, GitHub Actions

EDUCATION & CERTIFICATIONS

Bachelor of Science in Computer Science | Tribhuvan University, Nepal

- **Professional Scrum Master™ I (PSM I)** | Scrum.org
- **Google Project Management Professional Certificate** | Coursera / Google
- **AWS Certified Cloud Practitioner** | Amazon Web Services (AWS)
- **Agile Project Management** | Coursera
